

TANMAY RAVINDRA TAWARE

Software Test Engineer | Manual & Automation Testing | Quality Assurance (QA)

 +91 9527333191

 tanmaytaware1@gmail.com

Pune | Immediate Joiner

Seeking Manual QA / Automation Testing roles where I can apply 4 years of Telecom BSS experience in SIT, end-to-end validation, API/database testing, defect management, and release assurance.

Education

2022: B.E. in Information Technology
Sinhgad Academy of Engineering, Pune
Savitribai Phule Pune University | CGPA: 8.29

2018: HSC - Maharashtra State Board | 62.62%

2016: SSC - Maharashtra State Board | 68.00%

Core Competencies

- Manual & Functional Testing
- System Integration Testing (SIT)
- Regression, Sanity & Smoke Testing
- End-to-End & Integration Testing
- Telecom BSS Testing
- Amdocs CRM, EPC & Billing
- API Testing - SOAP UI / ReadyAPI
- Oracle SQL & Backend Validation
- Test Scenario & Test Case Design
- Defect Lifecycle Management
- UAT Support
- Release & Production Validation
- UFT Automation - VBScript
- Selenium WebDriver - Java
- Hybrid Automation Framework
- Data-Driven & Keyword-Driven Testing

Profile Summary

- **Manual QA specialist with 4 years of experience** at Amdocs India on a US-based Telecom BSS program, covering functional, SIT, integration, regression, end-to-end, UAT support and production validation.
- **Strong Telecom BSS exposure** across CRM, order management, enterprise product catalog, rating, billing, invoicing, collections and digital commerce journeys.
- **Hands-on API and backend validation** using SOAP UI / ReadyAPI and Oracle SQL / SQL Developer to verify request-response behaviour, business rules and database outcomes.
- **Experienced in defect management and release assurance**, including defect reporting in JIRA / HP ALM, retesting, regression, triage collaboration, risk/blocker communication and post-production sanity.

Achievements

- **Identified 50+ high-impact defects** during release and SIT testing, helping teams detect critical issues before production.
- **Nominated for Star Performer** at project/cluster level for testing contribution, ownership and defect identification.
- **Contributed to reducing defect leakage** through disciplined regression, retesting and close collaboration with developers and leads.
- **Supported team capability building** through onboarding/knowledge-sharing sessions and contribution to the internal brAIn knowledge tool; also supported Apple-device release testing.

Work Experience

Jul 2022 - Jul 2026: Software Test Engineer
Amdocs India Ltd, Pune | Client: US Cellular (Telecom BSS)

KEY RESULT AREAS

- **Requirements & Test Design:** Analyzed SRS/BRD/user stories and change requirements; prepared test scenarios, test cases, test data and RTM for functional and integration coverage.
- **SIT & End-to-End Validation:** Executed manual testing across CRM, OMS, EPC, RPL, rating, Amdocs Billing, invoicing and collections, validating data and business-flow consistency across integrated systems.
- **Telecom Business Flows:** Validated customer and order journeys including activation, change, suspend/resume, cease, re-establish, EIP/non-EIP, port-in/port-out, prepaid/postpaid, usage, rating and billing scenarios.
- **API & Backend Validation:** Performed SOAP/API checks using SOAP UI / ReadyAPI and database verification using Oracle SQL / SQL Developer for data validation and troubleshooting.
- **Defect Lifecycle Management:** Logged reproducible defects in JIRA and HP ALM with evidence and business impact; supported severity/priority discussions, retesting, regression and closure with development teams.
- **EPC & Digital Commerce Testing:** Validated rate plans, devices, accessories, add-ons, promotions, pricing, eligibility and product visibility, including cart/checkout and downstream order/billing impacts.
- **Release & Production Validation:** Performed deployment sanity, critical-flow checks, defect-fix verification and post-production validation for MR/RD releases and business-critical changes.

→ **Apple Device Release Testing:** Validated ordering, activation, pricing, offers and channel consistency for Apple device launches including iPhone, iPad, Apple Watch and accessories.

Category	Skills / Expertise
Testing Methodologies	Manual Testing, Functional Testing, SIT, Integration Testing, End-to-End Testing, Regression Testing, Sanity Testing, Smoke Testing, Retesting, UAT Support
API Testing	SOAP API Testing, Web Services Validation, Request/Response Verification, API Functional Testing using SOAP UI / ReadyAPI
Database Testing	Oracle SQL Query Validation, SQL Developer, Backend Verification, Data Integrity Checks, Test Data Validation
Telecom BSS	CRM, OMS, EPC, RPL, Rating, Amdocs Billing, Invoicing, Collections, Journaling, Digital Commerce
Business Flows	Activation, Change, Suspend/Resume, Cease/Re-establish, EIP/Non-EIP, PIPO, Prepaid/Postpaid, Usage, Rating, Billing
Test Management & Defects	Test Scenario/Case Design, RTM, Test Execution, Defect Reporting, Retesting, Defect Triage, Risk/Blocker Reporting
Tools & Utilities	JIRA, HP ALM / Quality Center, SOAP UI / ReadyAPI, Oracle SQL Developer PuTTY, UFT (VBScript), Selenium WebDriver (Java)
Platform Testing	Web Application Testing, Mobile/Digital Channel Testing, Cross-Device Compatibility, Production Sanity
Agile & Delivery	Agile/Scrum, SDLC, STLC, Sprint Execution, Release Validation, UAT Support, Stakeholder Collaboration
Reporting & Documentation	Test Execution Status, Defect Summary, Risk/Blocker Reporting, Evidence Capture, Knowledge Sharing and Handover Support

- **Customer & Account Lifecycle:** Customer creation, activation, change orders, suspend/resume, cease, re-establish and collections-related validation.
- **Product & Order Journeys:** Rate plans, devices, accessories, add-ons, promotions, eligibility, pricing, product visibility, cart and checkout behaviour.
- **Billing & Revenue Validation:** Usage/rating, recurring and one-time charges, billing-cycle impacts, invoice validation and downstream collections checks.

- **Telecom BSS Release Coverage:** Validated integrated customer, product, order, rating, billing and collections flows across regular releases and change requests.
- **Migration Validation:** Supported source-to-target and post-migration checks using UI, API and backend evidence, with targeted regression on impacted customer journeys.
- **Digital Commerce & Device Launches:** Tested device/plan eligibility, pricing, promotions, cart/checkout behaviour and Apple-device launch journeys across digital channels.
- **Knowledge Enablement:** Contributed reusable testing knowledge to the internal brAIn tool and conducted onboarding / knowledge-sharing sessions for team members.
- **Automation:** UFT/VBScript (desktop), Selenium WebDriver/Java (web), hybrid framework with data-driven and keyword-driven approaches.

- ISTQB Certified Tester Foundation Level (CTFL) v4.0 - Certified, Jul 2026
- Python AI Adventure - Certification, Sep 2025
- ISTQB Certified Tester - Testing with Generative AI (CT-GenAI) - Exam attended, Aug 2026
